

Jablocom Phone Solution

Jablocom Phone Solution offers a smart alternative of voice communication in your company. Unlike systems based on landlines or VoIP, it does not need any wires, servers, licences or maintenance. It simply uses network services of a mobile operator. Thus, it can smoothly replace or extend your current phone system.

1 REDUCED COSTS. SIGNIFICANTLY.

No infrastructure, no maintenance, no experts, no expensive upgrades, no landline fees. It means lower investment and operating costs. Significantly lower. You can operate your desktop phones as efficiently and effortlessly as your mobile phones – and under the same contract.

-60%

The State Land Office in the Czech Republic saved 60% of investment costs* for a system with 900 phones on 80 locations.

* Compared to the actual offer based on VoIP technology.

HEADQUARTERS

Must-have feature

"This is really a feature we have been waiting for quite a while – it's so much needed in a company environment!"

Elite Tours, Austria

4

4 OPTIMIZED FOR WORK.

Jablocom phones are created for professional use with the user in mind. Functional design, intuitive control, solid workmanship, sound quality, headset support and further features make an efficient and comfortable working tool. People like them. Even after hundreds of calls.

900 phones.
Not a single claim.

"We have no problems or claims reported. Getting used to better things is always easy."

The State Land Office, Czech Republic

2

2 SIMPLE AND SCALABLE.

Implementation of our solution is easy and quick. Just insert SIM cards into your new desktop phones and call. It also smoothly adapts to changing needs. Whenever you grow, reorganize, establish a branch or move; your phones will follow you.

3

3 HEAVY DUTY. NO MAINTENANCE.

Your team works hard and expects reliable working tools. Our solution meets your demands. Mobile network is under 24/7 supervision of your operator; our cloud provides bank-grade security and our phones offer an outstanding quality and durability. You can count on support of our local partners, profound after-sales services and a 36 months warranty.

From hundreds to thousands

Since 2011 German railway operator Deutsche Bahn has been replacing gradually the old phone system by Jablocom phones. New system flexibly grows from hundreds to thousands terminals without any upgrade.
